

DEG cluster 1

DEG cluster 2

Metabolic pathways  
Pentose and glucuronate interconversions  
Ascorbate and aldarate metabolism  
Drug metabolism – cytochrome P450  
Metabolism of xenobiotics by cytochrome P450  
Biosynthesis of secondary metabolites  
Drug metabolism – other enzymes  
Retinol metabolism

Hedgehog signaling pathway – fly  
Hedgehog signaling pathway  
Toll and Imd signaling pathway  
Protein digestion and absorption  
ABC transporters

-log10 adjusted p-value

Cluster genes in pathway ● 25 ● 50 ● 75 ● 100
